

LAWSON HEALTH RESEARCH INSTITUTE
and WESTERN UNIVERSITY
Schulich School of Medicine & Dentistry

are seeking outstanding candidates for

RESEARCH CHAIR IN HUMAN MICROBIOME AND PROBIOTICS

Lawson Health Research Institute (Lawson), in partnership with Western University, seeks applicants for the Research Chair in Human Microbiome and Probiotics administered through the St. Joseph's Health Care London Foundation. The successful candidate will have demonstrated academic excellence based on productivity and impact in research, be an exceptional scientific leader and role model, and will advance inter-disciplinary and translational research within St. Joseph's Health Care London and throughout Western University. The successful applicant will be based primarily at the Grosvenor Street site of St. Joseph's Health Care London and will provide leadership for the Canadian Centre for Human Microbiome and Probiotic Research at Lawson where current projects emphasize real-life applications. The program solidifies probiotics research in areas of relevance including: probiotics, prebiotics, fecal microbiota transplant or defined microbial consortia delivery, beneficial microbes, fermented food, microbiome including bioinformatics, metabolomics, and pharmacology. Further institute details can be found at websites: www.lawsonresearch.com and www.uwo.ca.

It is expected that the incumbent will gain and retain international standing through research studies and communication of probiotic research. The successful candidate will have a proven track record as a successful, independent scientist and leader as evidenced by high quality publications in peer-reviewed journals, a strong record of supervising students and trainees, organizing international meetings and collaborative research efforts, and a superior record of attracting external funding. The candidate will have evidence of successfully leading research teams and promoting interdisciplinary scholarship.

A successful candidate holding a PhD, MD or MD/PhD in a relevant field will be appointed at the level of Associate Professor or Full Professor depending on qualifications and experience. Compensation will be commensurate with qualifications and experience. The candidate will be expected to obtain an appointment in a Department within the Schulich School of Medicine & Dentistry, dependent upon area of expertise.

Excellent facilities exist at Lawson and Western University for basic science research including core facilities at the Robarts Research Institute (www.Robarts.ca) and the recently opened ImPaKT facility (www.schulich.uwo.ca/impakt/index.html). The position offers considerable opportunity to interact with highly successful groups in microbiome, microbiology and immunology, surgery, urology, synthetic biology, medical imaging, regenerative and internal medicine, psychiatry, circulation, diabetes and metabolism, and clinical neurosciences.

Potential applicants should forward, in confidence, a cover letter, curriculum vitae, statement of research interests, a documented record of research activity and leadership (including success in securing external funding support), and contact information for three references to:

Dr. David Hill, Scientific Director
Lawson Health Research Institute
St. Joseph's Health Care, 268 Grosvenor Street
London, Ontario, N6A 4V2
Canada
David.hill@lawsonresearch.com

Applications will be received until the position is filled. Anticipated start date will be negotiated. Review of applications will begin after **January 31, 2020**.

For PhD applicants, please ensure that the form available at the link below is completed and included in your application submission:
