

LAWSON HEALTH RESEARCH INSTITUTE

Lawson Health Research Institute (Lawson) is the research institute of London Health Sciences Centre and St. Joseph's Health Care London.

For more than thirty years, Lawson Health Research Institute in partnership with Western University has been driving innovation and helping transform health care.

Our researchers focus their efforts on the development of new knowledge that can be applied directly to patient care within the hospitals. Through collaboration and the sharing of their discoveries, Lawson researchers make a difference in patients' lives every day.

Research at Lawson spans the continuum of life - from birth to death - and this is reflected in the research themes that mirror the clinical areas of LHSC and St. Joseph's.

Research at Lawson includes:

- Cancer
- Cardiology & Vascular Diseases
- Children's Health
- Cognitive Vitality and Brain Health
- Critical Illness
- Diabetes and Endocrinology
- Imaging
- Infectious Diseases
- Mental Health
- Microbiome and Probiotics
- Mobility and Rehabilitation
- Nephrology and Kidney Care
- Neurological Disorders
- Orthopaedics
- Personalized Medicine
- Surgical Innovation
- Transplantation
